

MOHOMED FATHIMA ASMA

SOFTWARE DEVELOPER - INTERN

PROFESSIONAL SUMMARY

Passionate and detail-oriented software engineer student with hands-on experience in Java Spring Boot, full-stack web development, microservices, and machine learning. Proven ability to develop complete applications like laundry management systems and ride-sharing platforms. Eager to contribute to innovative projects as a software engineering intern.

PROJECT EXPERIENCE

FreshFold Laundry Management System

Full-stack Java Spring MVC web application for laundry service operations with user and order management | November 2025 – Present | [GitHub](#)

- Developed a full-stack laundry management system using Java Spring MVC, JSP, HTML/CSS/JS, and SQL Server, implementing user registration, authentication, and service ordering workflows
- Designed MVC architecture with separate Controller, Service, DAO, and Model layers, enabling modular code and easier maintenance of user and order data
- Built step-by-step with clear commit history, demonstrating iterative development and backend-frontend integration for real-world business operations

Fitness Membership System

Java-based web application for managing fitness center memberships using JSP, Servlets, and file handling | July 2025 | GitHub | [GitHub](#)

- Built a complete membership management system in Java with JSP/Servlets, allowing user registration, plan viewing, and membership CRUD operations using OOP principles
- Implemented file-based data persistence and basic HTML/CSS frontend to create an interactive user interface for plan management
- Applied core OOP concepts (classes, inheritance, encapsulation) to structure business logic for different membership types and user interactions

Personal Portfolio Website

Modern responsive personal portfolio built with JavaScript, Vite, and vanilla web technologies | May 2026 | [GitHub](#) | [portfolio](#)

- Designed and developed a responsive personal portfolio website showcasing projects, skills, and experience using JavaScript, HTML, and CSS
- Configured Vite for efficient development and deployment, ensuring fast loading and modern web standards compliance
- Created clean, professional UI to effectively present technical work and learning journey to recruiters and collaborators

SKILLS

Coding Languages

- Java
- Python
- JavaScript
- C++
- HTML/CSS
- R

Web Technologies

- HTML5
- CSS3
- JavaScript
- JSP
- Servlets
- Spring MVC
- React

Databases

- SQL (PostgreSQL / SQL Server)
- MongoDB

Frameworks & Tools

- Spring MVC
- Maven
- Vite
- Git
- React Native

Other Skills

- Object-Oriented Programming (OOP)
- Problem Solving
- Technical Documentation
- Presentation Skills
- MVC Architecture

FreshFold Laundry Admin Module

Admin dashboard for managing users, orders, laundry status, and payments in a Java-based system | November 2025 | [GitHub](#)

- *Developed the administrative backend module supporting user management, order tracking, status updates, and performance monitoring using Java and HTML interfaces*
- *Integrated admin functionalities with the main application to provide comprehensive system oversight for laundry operations*
- *Focused on usability and data management features to support efficient daily business administration*

Storks - School Ride Sharing Platform

Driver booking and ride management system for safe school transportation (Microservices Architecture) | Ongoing (Feature Branch) | [GitHub](#)

- *Developed the booking-and-payment microservice using Java + Spring Boot + Gradle, enabling parents to book rides with available drivers for school transportation*
- *Implemented core features including driver availability matching, real-time booking logic, and payment integration within a scalable microservices ecosystem (Docker, multiple services)*
- *Contributed to a full-stack transportation platform featuring a parent app, driver-app, admin-web, and backend services for location tracking, safety verification, and live messaging*

EDUCATIONAL BACKGROUND

BSC(Hons) in in Information Technology Specialized in Software Engineering

Institution: Sri Lanka Institute of Information Technology (SLIIT)
2024–Present | Year 3 Semester 1
Current CGPA: 2.77

G.C.E. Advanced Level (A/L)
Olcott College Galle | ART stream
2023 Year completed
